Blockchain com base em evidências (EBB): descobertas de um estudo global de Projetos Blockchain e Empresas Start-up

EBB é uma tomada de decisão consciente, explícita e criteriosa com base na experiência profissional e evidências de organizações, partes interessadas e pesquisa científica

EBB tenta resolver cinco grandes problemas no espaço do blockchain

- 1 Incapacidade de definir claramente o problema a ser resolvido
- 2 Não examinar diferentes fontes de evidências e nem sempre começando por pesquisar para as melhores evidências científicas disponíveis
- 3 Avaliação inadequada da qualidade da evidência
- 4 Falta de aplicação de evidências para melhorar processos
- 5 Relate os resultados de forma inadequada e resultados de experimentos, especialmente quando os resultados são desfavoráveis

Consultation and Call for Evidence (2023)**

Q. Do you agree with HM Treasury's proposal to expand the list of "specified investments" to include crypto assets? If not, then please specify why.

Agreed, subject to redefining non-fungible tokens for the purposes of legislation and associated guidance as a matter of urgency.

We note that the cryptoassets listed in Box 2.A could in future be subject to financial services regulation under the regulatory framework established by FSMA. We take issue with the following definition of non-fungible tokens or 'NFTs' in Box 2.A:

"Non-Fungible Tokens (NFTs) are cryptoassets which confer digital ownership rights of a unique asset (e.g., a piece of digital art), using a technology such as DLT to support the recording or storage of data. NFTs do not provide the rights or features associated with a security token and do not function as a means of

POLICYMAKERS ON BBA'S NATIONAL BLOCKCHAIN ROADMAP (VISION 2030)

“

This framework sets out a blueprint to devise the UK's National Blockchain Roadmap. It is a concise summary of the key recommendations that aim to inspire and reform Britain's DLT landscape. The principles and recommendations put forward in this excellent framework will position the UK at the forefront of DLT leadership.

Rt Hon Martin Docherty-Hughes MP

Chair, UK All-Party Parliamentary Group on Blockchain

“

This is a landmark report. There was an emergent need to establish a scientific blueprint that provides objectivity and precision to deliver the next 10-15 year DLT roadmap for the UK. These recommendations will provide the foundation of targeted action steps, policies and benchmarks to advance best practices. I truly believe that this report will become a milestone in setting the agenda and scientific policy framework for the UK's National Blockchain Roadmap. I look forward to building a more trusted UK DLT economy with the BBA."
