INFORMATION BROCHURE

2024 - 2025

info@britishblockchainassociation.org
BBA MEMBERSHIP: PREMIUM PLUS

• Invited to contribute to the work of the BBA in its role as the Secretariat of the UK All-Party Parliamentary Group on Blockchain Technologies (APPG)

• Featured in Members Section of The Journal of The British Blockchain Association - The JBBA (journal is distributed worldwide)

• Featured Partner of Blockchain Association's Forum BAF Annual Summit (held annually)

• Honorary Membership of BBA’s Centre for Evidence Based Blockchain (CEBB)

• Invited to contribute to the UK National Blockchain Roadmap (UK NBR)
BBA MEMBERSHIP: PREMIUM PLUS

- Highlighted as Member in BBA reports
- Right to Vote in important organisation decisions such as appointment of new advisors and Fellows
- Featured as Conference Partner at the BBA's flagship Annual Blockchain International Scientific Conference (ISC)
- Displayed in BBA METAVERSE Headquarters throughout the year, during all metaverse events
- Hold joint-events with the BBA
- Right to post jobs and offers to the BBA community
- Invited to sponsor the BBA APPG Secretariat
WE ARE THE SECRETARIAT OF UK PARLIAMENTARY GROUP ON BLOCKCHAIN

BBA is the Secretariat of UK APPG on Blockchain Technologies

britishblockchainassociation.org/appg
OUR VISION & MISSION

Vision

- Evidence-Based adoption of Blockchain and other DLTs
- Foster Quadruple Helix Web3 Innovation Ecosystems
- Make the UK a Centre of Excellence in DLT
- Be the leading industry voice for Blockchain advocacy, collaboration and convergence

Mission

- Establish a world-class DLT ecosystem by working in strategic collaboration with all stakeholders in the blockchain space
- Advancing best practices and standards in Blockchain
- Deliver the UK's National Blockchain Roadmap VISION 2030
- Bridge the gap between Blockchain industry and academia

BBA 2023 Year in Review
Create impact and add value to your organisation by becoming a part of one of the most prestigious and influential Blockchain industry think-tanks in the world.

Be a part of the UK's National Blockchain Roadmap (NBR) VISION 2030 and build long-term relationships with key market leaders in Blockchain.

Contribute to the BBA's DLT Excellence Standards Framework.

Maximise your visibility through co-branding with the BBA.

Connect & collaborate with the BBA's global network of the best and the brightest talents in blockchain.

Priority access to peer-reviewed, accredited research and training.

Strengthen your brand recognition by getting featured in the NBR, JBBA, ISC, CEBB and BAF's Quadruple Helix Innovation Ecosystems.

Showcase your organisation to people who matter - Get in front of the policymakers, innovators, investors and thought leaders in 150+ countries - AND In the Metaverse!
In 2022, BBA president Professor Naseem Naqvi, was awarded an MBE, one of the **UK’s most prestigious National Honours** (King’s Honour), for **services to Blockchain** and Distributed Ledger Technologies.

The UK National Honours (formerly Queen’s Honours and now King’s Honours) are bestowed on individuals who have made **outstanding contributions** in their respective fields, elevating the **UK’s international standing** and putting Britain on the map. The Honour celebrates the **exceptional people** who go above and beyond to **change the world around them for the better**, and recognises individuals who have selflessly volunteered their time and efforts by doing **vital and extraordinary work in the United Kingdom, and beyond**.

Evidence-Based Blockchain (EBB): Findings from a Global Study of Blockchain Projects and Start-up Companies

EBB attempts to solve five major problems in the blockchain space:

1. Inability to clearly define the problem to be solved
2. Not examining different sources of evidence or not always working to seek the best available scientific evidence
3. Inadequate evaluation of the quality of evidence
4. Lack of application of evidence to improve processes
5. Inadequately report the outcomes & results of experiments, especially when the results are unfavorable

Summary of Results:

Problem:
North of the blockchain firmottie has no regret of evidence the problem to be solved

Approach:
An EBB model is first to create a compilation and innovation analysis

 Deliverable:
Less than 7% dimension evidence of blockchain backed by financial information

Evidence Assessment Framework for Blockchain Applications

WANT IT PROVED?
01. Is there a clearly defined problem to be solved?
02. What is the evidence that the problem exists?
03. How significant is the problem?

WANT THE EXISTING SOLUTIONS EXAMINATIONS CONSIDERED?
04. What are the existing solutions available to address the problem?
05. What are the results of the existing solutions, if available?
06. Are these critically evaluated?

WANT A NEW INTERVENTION?
07. What is the intervention likely to be and different innovation options?
08. Is there sufficient evidence to back up the innovation?
09. Is the intervention critically evaluated?

WANT ARE THE OUTCOMES?
10. How many show a significant improvement in dynamics?
11. Which interventions are less effective?
12. Are outcomes critically evaluated?

QUALITY OF EVIDENCE: Filtered V Unfiltered Evidence

Evaluation of Post-Quantum Distributed Ledger Cryptography

According to NIST, the use of schemes with less than 112-bit security is deprecated and will eventually be disallowed for use by U.S. government institutions to handle sensitive data

Solutions to tackle Quantum threats

ECDSA Public Key Infrastructure

Next Steps and Recommendations:

Paves the way to existing infrastructures

bitcoin
Hyperledger Fabric
Ethereum

ECDSA used in

Government
Decentralized Finance
Health
Supply Chain
Transportation

ECDSA, NIST, PQC, Lattice-based, Post-Quantum, Cryptography, Algorithm, Ring Learning with Errors (RLWE)

Industry Standardization (Academia, Public, and Private Sector)
Blockchain implementations using TLS, RE, code signing and PKE

CEBB MEMBER BENEFITS

- Contribute to **UK's National Blockchain Roadmap** and **Excellence Standards Framework**

- Affordable and cost-effective **high-quality industry research** led by eminent academics

- A ‘**one-stop portal** coordinating blockchain **enterprise research** at the world’s leading universities and public institutions

- Exclusive, **close-knit networking** opportunities and with **public and private sector** stakeholder peers to build evidence-based guidelines

- **Set benchmarks and frameworks** to support governments, businesses and policymakers in making evidence-based decisions

- **Featured in the JBBA** and at the BBA's **international scientific conferences**
BLOCKCHAIN-BASED AI GOVERNANCE: Building Trust in Intelligent Systems

FEATURED ARTICLES
Blockchain for AI: Confidential ChatGPTs and Decentralised Federated Frameworks

4TH BLOCKCHAIN ASSOCIATIONS FORUM (BAF) ANNUAL MEMBER SUMMIT | 18 SEPTEMBER 2024

Proceedings of 6th Blockchain International Scientific Conference #ISC2024
**Featured** in The JBBA (Premium+). Print copies of the journal are sent to blockchain thought-leaders, universities, Banks, Fintech Institutions, blockchain research institutes, policymakers and industry leaders, worldwide in **100+ countries**

- A **featured article** about your organisation (Patron)
- Your organisation will be **highlighted** as the journal’s academic partners at BBA **International Scientific Conferences**, events and forums
- Your organisation name will be featured in the journal **website throughout the LIFE of the journal**
- **Connect, network and build** long term relationships with key players and **market leaders** in the field of Blockchain
- **Strengthen your brand recognition:** Sponsoring the journal puts your name **prominently** in front of each and every reader of the JBBA (**800,000+** readers on DOAJ per month).
In print distribution to Deans and Vice Chancellors at 300+ universities in 107 countries, JBBA is the world's first and the only blockchain research journal available in print and online.

"Looks Fabulous. JBBA is a very professionally presented journal."

Rt Hon Andrew Griffith MP, Economic Secretary (HM Treasury)
andrew.griffith.mp@parliament.uk

The British Blockchain Association’s response to HM Treasury’s Future Financial Services Regulatory Regime for Cryptoassets Consultation and Call for Evidence (2023)

Q. Do you agree with HM Treasury’s proposal to expand the list of “specified investments” to include crypto assets? If not, then please specify why.

Agreed, subject to redefining non-fungible tokens for the purposes of legislation and associated guidance as a matter of urgency.

We note that the cryptoassets listed in Box 2.A could in future be subject to financial services regulation under the regulatory framework established by FSMA. We take issue with the following definition of non-fungible tokens or ‘NFTs’ in Box 2.A:

*Non-Fungible Tokens (NFTs) are cryptoassets which confer digital ownership rights of a unique asset (e.g., a piece of digital art), using a technology such as DLT to support the recording or storage of data. NFTs do not provide the rights or features associated with a security token and do not function as a means of exchange.*
Dear Dr. Nazni,

I have been asked to thank you for sending The Queen a copy of the eighth edition of the *Journal of the British Blockchain Association*.

Her Majesty was interested to learn that this is the fourth issue which has been published during a global pandemic.

The kind sentiments expressed in your letter are much appreciated and, in return, The Queen sends her best wishes to all concerned.

Yours sincerely,

Miranda Hansen Lise
Loyal Greetings Officer
9th May, 2022.

Dear Dr Naqvi,

Thank you for your letter of 27th April, enclosing a copy of the ninth issue of 'The Journal of the British Blockchain Association' for The Queen.

I have shown this publication to Her Majesty, who was most grateful to receive it.

This message comes to you, and to all at the British Blockchain Association, with The Queen’s warm good wishes.

Yours sincerely,

Matt Magee

Recommendations by

The Centre for Evidence-Based Blockchain

July 2021

Click here to view the roadmap
This framework sets out a blueprint to devise the UK’s National Blockchain Roadmap. It is a concise summary of the key recommendations that aim to inspire and reform Britain’s DLT landscape. The principles and recommendations put forward in this excellent framework will position the UK at the forefront of DLT leadership.

Rt Hon Martin Docherty-Hughes MP
Member of Parliament, UK

This is a landmark report. There was an emergent need to establish a scientific blueprint that provides objectivity and precision to deliver the next 10-15 year DLT roadmap for the UK. These recommendations will provide the foundation of targeted action steps, policies and benchmarks to advance best practices. I truly believe that this report will become a milestone in setting the agenda and scientific policy framework for the UK’s National Blockchain Roadmap. I look forward to building a more trusted UK DLT economy with the BBA.
