OUR VISION & MISSION

Vision
- Evidence-Based adoption of Blockchain and other DLTs
- Foster Quadruple Helix Web3 Innovation Ecosystems
- Make the UK a Centre of Excellence in DLT
- Be the leading industry voice for Blockchain advocacy, collaboration and convergence

Mission
- Establish a world-class DLT ecosystem by working in strategic collaboration with all stakeholders in the blockchain space
- Advancing best practices and standards in Blockchain
- Deliver the UK's National Blockchain Roadmap VISION 2030
- Bridge the gap between Blockchain industry and academia

BBA 2023 Year in Review
Create impact and add value to your organisation by becoming a part of one of the most prestigious and influential Blockchain industry think-tanks in the world.

Be a part of the UK's National Blockchain Roadmap (NBR) VISION 2030 and build long-term relationships with key market leaders in Blockchain.

Contribute to the BBA's DLT Excellence Standards Framework.

Maximise your visibility through co-branding with the BBA.

Connect & collaborate with the BBA's global network of the best and the brightest talents in blockchain.

Priority access to peer-reviewed, accredited research and training.

Strengthen your brand recognition by getting featured in the NBR, JBBA, ISC, CEBB and BAF's Quadruple Helix Innovation Ecosystems.

Showcase your organisation to people who matter - Get in front of the policymakers, innovators, investors and thought leaders in 150+ countries - AND In the Metaverse!
In 2022, BBA president Professor Naseem Naqvi, was awarded an MBE, one of the **UK’s most prestigious National Honours** (King’s Honour), for **services to Blockchain** and Distributed Ledger Technologies.

The UK National Honours (formerly Queen’s Honours and now King’s Honours) are bestowed on individuals who have made **outstanding contributions** in their respective fields, elevating the **UK’s international standing** and putting Britain on the map. The Honour celebrates the **exceptional people** who go above and beyond to **change the world around them for the better**, and recognises individuals who have selflessly volunteered their time and efforts by doing **vital and extraordinary work in the United Kingdom, and beyond.**

Evidence-Based Blockchain (EBB): Findings from a Global Study of Blockchain Projects and Start-up Companies

EBB attempts to solve five major problems in the blockchain space:
1. Inability to clearly define the problem to be solved
2. Not examining different sources of evidence & not always following best practices
3. Inadequate evaluation of the quality of evidence
4. Lack of application of evidence to improve processes
5. Inadequately reporting the outcomes & results of experiments, especially when results are unfavourable

Summary of Results
- Problem
  - Not all blockchain networks have evidence of the problems to be solved
- Comprehension
  - Approaches have been developed to create an evaluation of evidence and innovation analysis
- Dealing
  - Less than 20% of known solutions to the problems have been adequately validated

Evidence Assessment Framework for Blockchain Applications
- WANT THE PROBLEM?
  - Do the available datasets have problems to be solved?
- WANT THE EVIDENCE?
  - What is the evidence of the problem solved?
- WANT THE EVIDENCE OF THE SOLUTION?
  - What are the existing solutions available to address the problem?
- WANT THE EVIDENCE OF HOW TO USE IT?
  - What are the best practices for using the solutions?
- WANT THE EVIDENCE OF HOW TO SCALE IT?
  - Are the solutions being scaled for real-world use?

Quality of Evidence: Filtered V Unfiltered Evidence

Evaluation of Post-Quantum Distributed Ledger Cryptography

According to NIST, the use of schemes with less than 112-bit security is deprecated and will eventually be disallowed for use by U.S. government institutions to handle sensitive data

Solutions to tackle Quantum threats

Next Steps and Recommendations:

ECDSA used in
- Bitcoin
- Hyperledger Fabric
- Ethereum
WE DESIGN RESEARCH SUMMARIES IN MULTIPLE LANGUAGES

Blockchain com base em evidências (EBB): descobertas de um estudo global de Projetos Blockchain e Empresas Start-up

EBB é uma tomada de decisão consciente, explicita e criteriosa com base na experiência profissional e evidências de organizações, partes interessadas e pesquisa científica.

**Resumo dos Resultados**

- **Problema**: Artigo do blockchain empresa não mostram explícito evidência do problema a ser resolvido.
- **Metodologia**: Ancorar em diferentes fontes de evidências que não são resultados de estudos, mas sim, de práticas e pesquisas relevantes.
- **Resultados**: Qual é o problema? QUAL é o principal problema que a empresa deve enfrentar?

**Estrutura de análise de evidências para aplicações Blockchain**

- **Qual é o problema?**
  - 01: Existe um problema claramente definido e a ser resolvido? Qual é a evidência de que o problema existe? Qual é a evidência de que a problemática é relevante?
- **Resumo de resultados**
  - 02: Quais são os resultados, resultados dos sistemas, sistemas existentes?
- **Não é um problema?**
  - 03: Existe evidência claramente para não existir um problema? Em caso afirmativo, por que não seria um problema?

**QUALIDADE DE EVIDÊNCIA: Provas Filtradas V não filtradas**

- **Artigos de revistas, teorias, anedotas, testemunhos de blogos**
- **Informações de base, opinião de especialista, relatórios de consenso**
- **Estudos de caso não revisados por pares, emais, comentário e análise**
- **Disciplinas de estudos**
  - Sociais, Humanas e Ciências da Informação
- **Habilidades digitais, Tecnologias e Relação de Resultados**
- **Técnica de dados científicos, Técnicas de análise e análise de dados**
- **Rascunhos, Pesquisa e Pagamentos**

BBA ADVISING CENTRAL BANKS AND CONTRIBUTING TO BANK OF ENGLAND CALL FOR EVIDENCE

10 March 2024

Bank of England
Threadneedle Street
London
EC2R 8AH

Also sent electronically to:
CBDC@bankofengland.co.uk

The British Blockchain Association’s response to Bank of England’s Request for Information (RFI) around Privacy and Digital Pound (CBDC)

A CBDC holds promise for the future of finance. At the same time, it raises several privacy concerns. From increased surveillance and monitoring to data security risks, there are considerations that need to be taken into account when discussing the implications of CBDC for society.
10 April 2023
HM Treasury
Future Regulatory Regime for Cryptoassets (Consultation)
Payments and Fintech
1 Horse Guards Road
SW1A 2HQ

Also sent electronically to:
cryptoasset.consultation@hmtreasury.gov.uk
Rt Hon Andrew Griffith MP, Economic Secretary (HM Treasury)
andrew.griffith.mp@parliament.uk

The British Blockchain Association's response to HM Treasury’s Future Financial Services Regulatory Regime for Cryptoassets Consultation and Call for Evidence (2023)

Q. Do you agree with HM Treasury’s proposal to expand the list of “specified investments” to include crypto assets? If not, then please specify why.

Agreed, subject to redefining non-fungible tokens for the purposes of legislation and associated guidance as a matter of urgency.

We note that the cryptoassets listed in Box 2.A could in future be subject to financial services regulation under the regulatory framework established by FSMA. We take issue with the following definition of non-fungible tokens or ‘NFTs’ in Box 2.A:

“Non-Fungible Tokens (NFTs) are cryptoassets which confer digital ownership rights of a unique asset (e.g., a piece of digital art), using a technology such as DLT to support the recording or storage of data. NFTs do not provide the rights or features associated with a security token and do not function as a means of...”

12th November, 2021.

Dear Dr Naqui,

I have been asked to thank you for sending The Queen a copy of the eighth edition of the Journal of the British Blockchain Association.

Her Majesty was interested to learn that this is the fourth issue which has been published during a global pandemic.

The kind sentiments expressed in your letter are much appreciated and, in return, The Queen sends her best wishes to all concerned.

Yours sincerely,

Miranda Hansen Lise
Loyal Greetings Officer
9th May, 2022.

Dear Dr. Naqvi,

Thank you for your letter of 27th April, enclosing a copy of the ninth issue of ‘The Journal of the British Blockchain Association’ for The Queen.

I have shown this publication to Her Majesty, who was most grateful to receive it.

This message comes to you, and to all at the British Blockchain Association, with The Queen’s warm good wishes.

Yours sincerely,

Matt Magee

RECOMMENDATIONS BY

THE CENTRE FOR EVIDENCE-BASED BLOCKCHAIN

CEBB Centre for Evidence-Based Blockchain

JULY 2021

CLICK HERE TO VIEW THE ROADMAP
This framework sets out a blueprint to devise the UK’s National Blockchain Roadmap. It is a concise summary of the key recommendations that aim to inspire and reform Britain’s DLT landscape. The principles and recommendations put forward in this excellent framework will position the UK at the forefront of DLT leadership.

Rt Hon Martin Docherty-Hughes MP
Member of Parliament, UK

This is a landmark report. There was an emergent need to establish a scientific blueprint that provides objectivity and precision to deliver the next 10-15 year DLT roadmap for the UK. These recommendations will provide the foundation of targeted action steps, policies and benchmarks to advance best practices. I truly believe that this report will become a milestone in setting the agenda and scientific policy framework for the UK’s National Blockchain Roadmap. I look forward to building a more trusted UK DLT economy with the BBA.

Rt Hon Lord Holmes of Richmond MBE
Member of the House of Lords and Fellow, The BBA
SPEAK AT BBA CONFERENCES

Motivation

- Blockchain governance crisis (De Filippi and Loveluck 2016)
  - ‘Ya’ Governance Agreement
  - User-Activated Soft Fork

- Should governance be ‘on chain’ (Ehsan 2017) or ‘off chain’ (Bulbin in 2016, Zanfir 2017)? Should it be ‘formal’ or ‘informal’?

- Consideration: we’re looking at the governance of blockchains, not governance by blockchain
SPEAK AT BBA CONFERENCES
